UNIK BUS TERMINAL

Norway

Unik Bus Terminal

The largest bus station in the whole of Scandinavia: according to the motto “Indoor.Outdoor.Light.”, the UNIK bus terminal in the Norwegian city of Stavanger was equipped with indoor and outdoor luminaires from a single source. The architects Plank Arkitekter focused on formally uniform lighting units emphasising the architecture. The fascinating view of the ring-shaped luminaires along with their silhouettes reflected on the adjacent glass surfaces is a highlight.
