

Colour Collection Indoor

SELECTED. CURATED. AVAILABLE IMMEDIATELY.

Make it Yours

With the TRILUX Colour Collection, our experts combine timeless classics and the latest trend colours to create an inspiring range of colours for modern lighting solutions.

In future, much of the TRILUX luminaire range will be available not only in the tried-and-tested standard colours for indoor and outdoor applications, but also at short notice in selected colours from the Colour Collection. This makes it possible to quickly and flexibly implement custom design concepts.

All colour tones in the TRILUX Colour Collection are based on the RAL colour system and guarantee consistently high colour quality – for lighting solutions that are not only functionally reliable but that also add creative accents.

Can't find your preferred colour?

Beyond the Colour Collection, TRILUX can of course also realise custom colours for your project. This results in unique lighting solutions that blend seamlessly into the architecture and corporate design – or purposefully create accents.

The TRILUX commitment to quality at a glance:

- ✓ Select a "Make it Yours" product
- ✓ Define a colour
- ✓ Enquire about an order
- ✓ Implement the project

Your TRILUX distribution partner
is glad to help.
