

CHRIS SPORTS AG

New company headquarters in Eschlikon (Switzerland), Switzerland

CHRIS sports AG

New company headquarters in Eschlikon (Switzerland)

New company headquarters in Eschlikon (Switzerland)

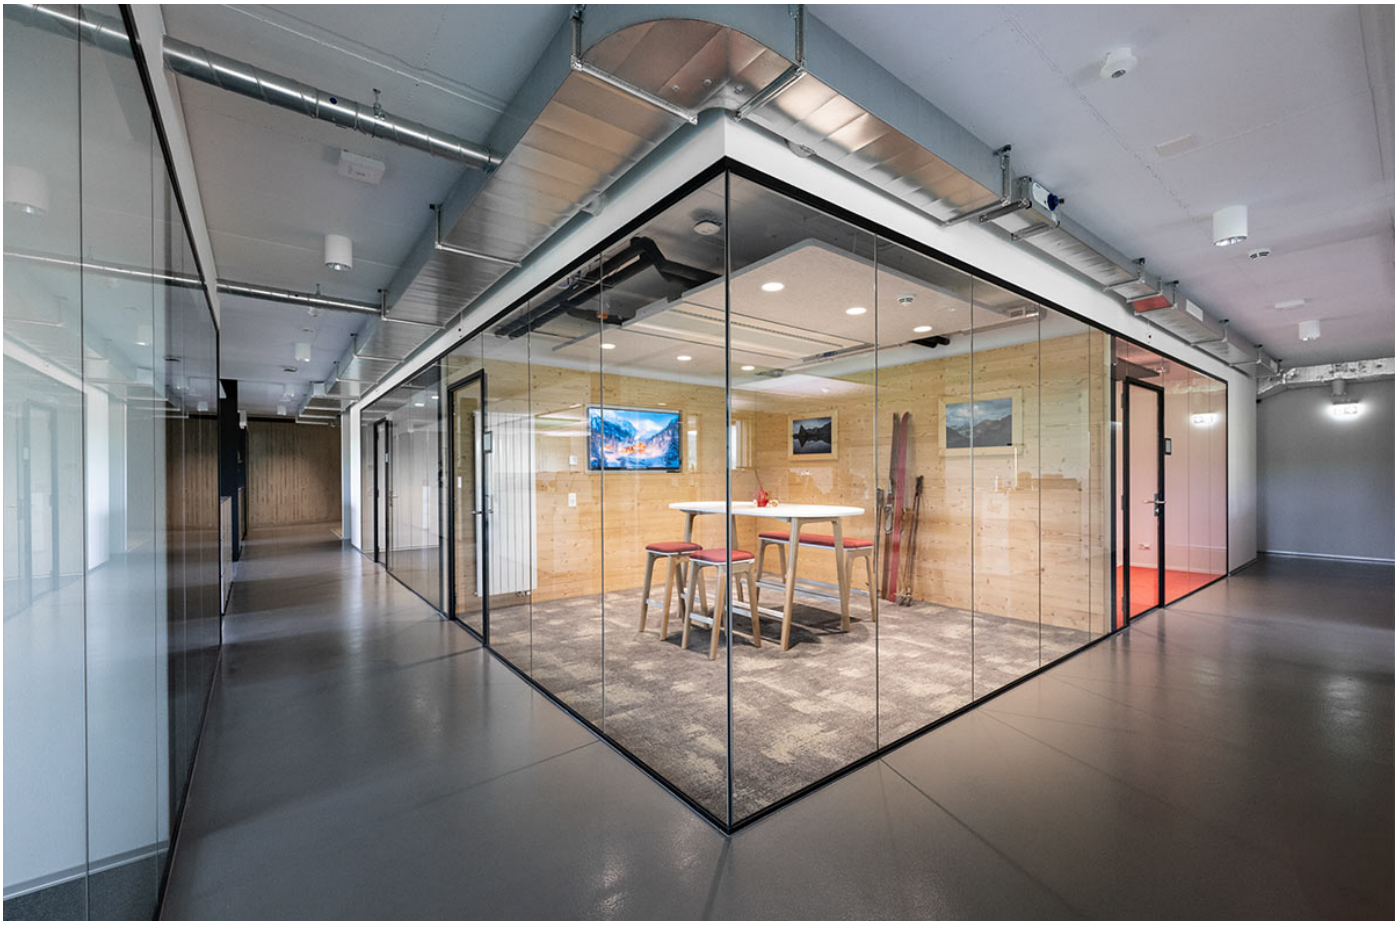

With the new build of its headquarters in Eschlikon, CHRIS sports has for the first time brought logistics, offices and brand presentation together under one roof. TRILUX Schweiz developed a holistic lighting concept for this that supports the different requirements of the work, storage and showroom areas while also emphasising the building's distinctive architecture and CHRIS sports' brand identity. Among others, the E-Line linear lighting system is used in the logistics area, Finea, Sonnos and Bicult luminaires in the offices, and Cycle ring luminaires from Monolicht in the reception area. The lighting is integrated into the building automation.

Address
Fabrikstrasse 10, 8360 Eschlikon, Switzerland

Architect
