Products used

Nextrema LED surface-mounted luminaires IP66
Ice cold or boiling hot, damp or dusty – no problem for the Nextrema LED with its robust die-cast aluminium body in cold stores, food production facilities, distribution centres or car parks at temperatures of -30°C to +35°C. In addition to its robust exterior, the luminaire's quality of light is also impressive throughout: the light is pleasantly homogeneous, glare-free and especially energy-efficient. Installation is also particularly simple and time-saving thanks to a number of clever functions.
