Belviso C1 LED ceiling-recessed luminaire

The Belviso luminaire family represents high quality lighting solutions together with glare-free light and unusual lighting effects. The design of the Belviso Cassette as a pure surface is enlivened by the precisely delineated light contour. The colour-illuminated light frame is available optionally and achieves an emotional upgrading of the lighting design. Five expressive alternatives mean that room-specific or individual colour codings can be selected.

Acuro LED wall surface-mounted luminaire

Glare-free, harmonious light in bathrooms is a real challenge due to reflective surfaces. The new TRILUX Acuro wall-mounted mirror luminaire meets this demand for light quality with ease and also features both reliable protection against splashwater and an attractive design. Equipped with LED technology, the luminaires also benefit from a long service life and almost no maintenance.
